ST. ALBANS, VT.GREAT IMPROVEMENT IN DENTISTRY.  
The attention of the public is called to a great  
discovery in Dentistry.THE GREATEST ADVANCE STEP EVER  
MADE IN THE ART.The main difficulty in wearing artificial teeth is,  
they do not hold in their place firmly enough,  
and add to this the annoyance of food getting  
under the plate while eating. I have discovered  
a method of so constructing the plate on  
which the teeth are set that they will not start  
or drop while eating or speaking, neither will  
any particles of food get under the plate, no  
matter what the condition of the month is,  
which is not true of any method hitherto used.I have secured Letters Patent for the United  
States, England and France.The improvement is not in material, but in  
the construction, which secures the atmospheric  
pressure on the entire plate.I have used the exclusive of said improvement  
to Dr. L. Gilman, to the Committee of Frank-  
lin, Washington, Chittenden, Lamoille and  
Grand Isle. Those wishing to avail themselves  
of such improvement, will call onDr. L. GILMAN,  
N. T. FOLSOM,  
November 11, 1867.

## Claim Agency.
